Senior Technology Manager | AI & Digital Transformation | Full Stack & Cloud Solutions

Professional Summary

Senior Technology Manager with 18+ years of expertise spanning Full Stack development (Python, Java, Spring), AI strategy, and enterprise digital transformation. Proven track record of delivering AI-driven solutions across Google Cloud, Azure, LLM platforms, RAG architectures, and MLOps pipelines. Experienced in leading cross-functional teams of 20+ engineers, driving Generative AI and Voice AI initiatives, and integrating cutting-edge models including GPT-4, Claude, and LangChain into production environments. Adept at building end-to-end CI/CD pipelines, translating complex business goals into scalable, AI-powered technical solutions that enhance user experience and operational efficiency.

Core Competencies

- Generative AI & LLMs
- Agentic AI & Multi-Agent Systems
- Voice AI & Conversational AI
- RAG Architecture & Vector Search
- LangChain / LangGraph
- Prompt Engineering
- Full-Stack Development (Python, Java, Spring)
- Cloud Solutions (GCP, Azure)
- MLOps & AI Governance
- CI/CD Pipelines & DevOps
- Spring Boot & Microservices
- UI/UX Design & Integration
- Agile & Scrum Methodologies
- Responsible AI
- Enterprise AI Strategy
- Team Leadership & Mentoring
- Project Management & Delivery
- Semantic Search & Fine-Tuning

Professional Experience

Mohawk Industries — Senior Technology Manager – AI & Digital Solutions

Nov 2020 – Present

- Lead the design and development of AI-powered web and mobile e-commerce applications using Python, Java, and Spring Boot, integrating Generative AI and LLM-driven features to elevate user engagement and deliver personalized customer experiences.
- Drive enterprise AI transformation by architecting RAG-based knowledge retrieval systems, Voice AI conversational interfaces, and agentic workflow automation leveraging LangChain and LangGraph frameworks.
- Manage a cross-functional team of 20+ UI developers, UX designers, and backend engineers, cultivating an AI-first culture of innovation, high performance, and continuous improvement.
- Architect and deploy scalable AI solutions on Google Cloud (Vertex AI, AlloyDB, Cloud Functions) and Azure, building robust MLOps and CI/CD pipelines for model training, fine-tuning, and production deployment.
- Strategize and execute the integration of UI with Bloomreach CMS and Commerce Cloud, incorporating AI-driven content recommendations, semantic search, and vector-based retrieval capabilities.
- Implement prompt engineering best practices and Responsible AI governance frameworks, ensuring ethical and secure deployment of GPT-4, Claude, and custom LLM models across enterprise applications.
- Establish and maintain end-to-end CI/CD pipelines using Docker, Bamboo, and cloud-native tooling, enabling rapid iteration, automated testing, and seamless production releases for AI-integrated services.

Key Outcomes & Business Impact

- **Brand Site Redesign:** Led redesign of 6 Mohawk B2C brand sites (Mohawk Flooring, Pergo, Karastan, Mohawk Build, IVC Floors, Quick Step) serving 20,000+ daily users.
- **Web Performance:** Cut page load time from 7s to under 2s — 80% improvement across FCP, TTI, and CLS.
- **Mohawk Xchange B2B Portal:** Powers 75% of Flooring North America business transactions.
- **Bloomreach Ecosystem (brXM, brSM, CDP):** Personalized content and search for 35,000+ monthly commercial visitors.
- **Order-to-Cash Automation:** Automated split-commission calculations for Account Executives, eliminating manual errors and accelerating sales productivity.
- **Enterprise Revenue Impact:** Delivered multi-million-dollar software portfolio driving revenue growth from thousands to millions across Mohawk's digital platforms.

Infosys Ltd — *Technical Lead*

Oct 2014 – Nov 2020

- Collaborated directly with enterprise clients, including AT&T to define project scopes and deliver AI-enhanced, customized UI solutions addressing complex business needs with predictive analytics and intelligent automation.
- Led technology strategy planning with the architecture team, aligning departmental priorities with AI-driven business objectives to maximize ROI and accelerate digital transformation.
- Oversaw the development of microservices and AI-integrated UI components using Angular, Java, and Spring Boot, resulting in enhanced system performance and intelligent user experiences.
- Managed project timelines and resource allocation using JIRA and Confluence, ensuring transparency and on-time delivery of complex, data-driven solutions across distributed teams.

Key Outcomes & Business Impact

- **AT&T DFW Rainmakers (DAI):** Led ad insertion and tracking for live and VoD content — revenue-critical work powering AT&T's ad-based revenue systems with industry-leading accuracy.
- **AT&T STB Ad Request Simulator (SARS):** Built ad-cache warming platform that improved ad performance and revenue capture for AT&T Set-Top Box ads.

Sonata Software Limited — *Senior Software Developer*

Oct 2013 – Oct 2014

- Designed and developed user interfaces using ExtJS, improving application functionality and user interaction for Broadridge Financial Solutions.
- Configured and managed Oracle database schemas, integrating with Spring iBatis to enhance data handling and retrieval processes.
- Supported unit and user acceptance testing, ensuring software reliability and adherence to client specifications.

Technical Skills

AI & ML	Generative AI, LLMs (GPT-4o, Claude), LangChain, LangGraph, RAG, Vector Search, Vertex AI, Prompt Engineering, Fine-Tuning, MLOps, Responsible AI, Multi-Agent Systems, Voice AI, Conversational AI, Semantic Search
Programming	Python, Java SE, Spring Boot, Spring MVC, Spring JPA, Spring REST, Spring Cloud, JSP, JDBC, EJB, Struts, Hibernate
Cloud & DevOps	GCP (Vertex AI, AlloyDB, Cloud Functions), Azure, Docker, Bamboo, CI/CD Pipelines, IBM WebSphere, Tomcat, WebLogic
Web Technologies	Angular, React, NodeJS, JSP, Servlets, HTML5, Bootstrap, JavaScript
Databases	Oracle, MySQL, SQL Server, DB2, AlloyDB

Education

Master of Technology (MTech), Information Technology — JNTU, India

Associate Member of the Institution of Engineers (AMIE), Computer Science - India

Diploma in Computer Science and Engineering (D.CM.E) - India

Certifications

- TOGAF® 9 Certified
- Developer Foundations – Bloomreach Experience Manager
- Advanced Solutions Lab | Advanced Generative AI Bootcamp – Google
- Prompt Design in Vertex AI – Google
- Responsible AI – Google
- Large Language Models – Google
- Generative AI – Google

Awards & Recognition

- Relentless Customer Focus (R3) Award – Recognized for exceptional dedication to customer-centric innovation and delivery excellence
- 2024 CIO Award – Honored for outstanding technology leadership and strategic impact

Industry Engagement & Memberships

- Judge, 2024 Globee Awards for Technology – Evaluated global technology innovations and enterprise solutions
- Judge, Brandon Hall Group Technology Awards – Assessed excellence in learning and HR technology solutions
- IEEE Senior Member – Institute of Electrical and Electronics Engineers (since 2024)
